

I forgot to mention to you if you ever care to phone me here at two numbers you can reach me at. My home number is [REDACTED] and my work number is [REDACTED]. I am two hours behind you time wise as I am on Pacific time and you are on Central time. One would think that Nevada would be on Mountain time, but I guess due to all of these Californians who drive over there to Las Vegas on the weekends they didn't want them having to reset their watches so they kind of angled around Nevada so it fell under Pacific time instead of Mountain time.

So again have a nice day and be hearing from you again.

My hours of work are 6AM till 4PM. I work a staggered work week.

Sincerely,

Gaillard Frank

Gail*

Yes I was in the military. I served with the U. S. Marines during the Korean War. I was in from February 1952 until February of 1954 and served overseas, as well. I have the Korean Service metal and the National Defense ribbon. speaking of the Korean thing. I understand some while ago some congressman back there gave out some kind of Korean Service Pin for lowan's. I contacted him and was told since I wasn't an Iowa residence anymore I couldn't get one and I checked here in Nevada on that and no one seems to know diddly. When I went overseas I crossed over on a troop ship, wasn't as lucky as the military today that flies. Wasn't too bad as I managed to survive. Do also recall getting sea sick coming back. Had some rough ocean on the way back. I am also a member of the Veterans Of Foreign Wars, Post 14000 member number 6012074.

As for my schooling, yes I attended a one room country schoolhouse which located approximately one half mile from my rural farm home. My Teacher I had was Lorene Pfofner Pfofner. She passed away here recently I was informed. In my last year I had Edna Mae Dammann Rudnick.

I understand she is still living in the Phoenix, AZ area. When we graduated from 8th grade we took a battery of tests and then later received our diploma at the Crawford County seat there at Denison, IA. My class Graduation picture I guess got lost as it was left at home with my parents and in their moves around I guess it was lost. I don't recall just who handed out our 8th grade diplomas, may have been the county school superintendent who was a Mr. F. N. Olry. I think that is how his name was spelled. Then in the fall of 1945 I entered into Manning High. The 9th grade at that time was located in a separate building kind of in the center of town.

This building was later condemned and demolished. My teachers I had in 9th grade was a Miss Gleason, Sylvia Waugh, a Mrs. Sanders, and Bill Steneker who was the shop instructor, plus also I was taking Vocational Ag at the time, but don't recall this teachers name.

Then in 10th grade I entered the high school building located there right off highway 141 and Main Street.

My teachers there if I recall were a Miss Edginton I had for Geometry, a Miss Reed who is now I think Mrs. Sam Weise, Myra Hamann for History. I had two different teachers in

English, a Ruth Moeller in 10th grade and a man of who I am a blank on at the moment, but I had him for Junior and Senior years. There were a couple other too of which I am a blank.

Anyhow, I hope my information I have provided hasn't been too lengthy?

Also Dave, I don't know how you have come up with all of this Manning Information, but you seem to have done one heck of a bang up job.

Also, if your wanting more info on my high school teacher I might be able to dig more up once I check through my high school annuals.
